

HP35 ANDERSON HYDRA PLATFORM

A medium-scale UBIT delivering the evolution of purpose-driven engineering

An Elite UBIT System Providing
a 1000 lb working platform payload,
a hydraulic backup motor and pump,
and patented tower system to increase
the efficiency of your operation.

EXTENDABLE ROTATING PLATFORM

➡ **180° PLATFORM ROTATION**

➡ **CROSSOVER PLATFORM**

➡ **WORK ACCESS TO SIDE-
WALKS AND RAILINGS**

UTILITY INSTALLATION

After installing over 550,000 linear feet of utilities under virtually every profile of bridge, we fully understand the associated challenges. We would love to assist on your next project and help make it go as smooth as possible.

BRIDGE ACCESS

Bridge Masters Inc. has over 2 decades of hands-on experience in this specialized field. Through these years we have been vigorously perfecting our methods and machines. Allow us to help you benefit from these refinements.

➡ **Increase Productivity**

➡ **Conserve Corporate Resources**

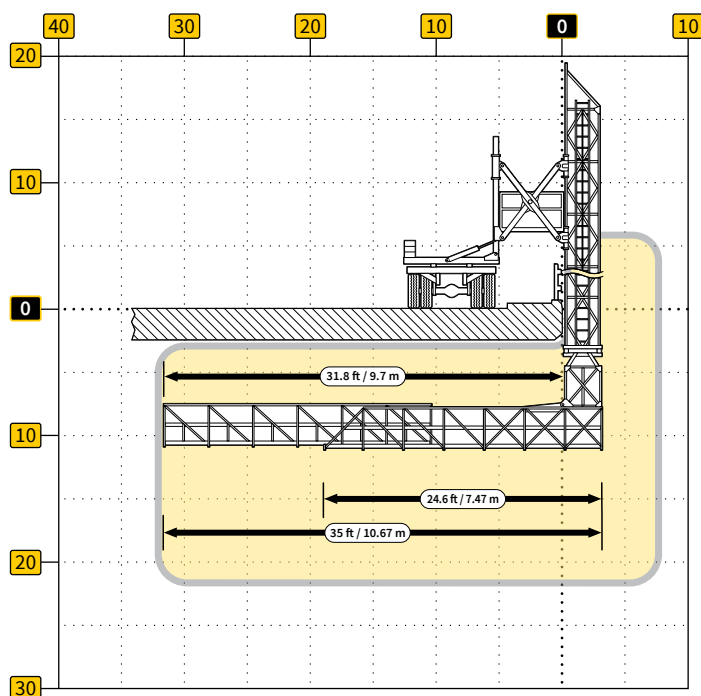

➡ **Get Answers from Master Bridge Technicians**

SPECIFICATIONS

PLATFORM SPECS		MAXIMUM REACH		ft/m	VEHICLE INFO	
Dimensions	35 ft x 40 in	Under Reach	from handrail (42" height)	31.8/9.7	For more specific vehicle options, capabilities, and dimensions please contact one of our specialists at: Todd@bridgemastersinc.com or call 1.888.851.0744	
	10.67 m x 0.78 m					
Working Payload	1000 lb/455 kg	Down Reach	from level surface	21.7/7.6		

Max Horizontal Reach Under Bridge

Max Vertical Reach Below Bridge

PATENTED TOWER SYSTEM

The patented Tower Separation System, with adjustable arms between the vertical tower and turntable sub-frame, provides operator the flexibility to extend the tower and work platform over sidewalks and other barriers.

CONTROLS AND COMMUNICATION

The HP35 hydraulic control panels are accessible from the deck, work platform or a handheld. The on-board communication system is voice activated and operates between the platform and bridge deck.

PERSONNEL SAFETY

Access-crossover to the tower remains horizontal at all times, for the safety of your crew members, preventing awkward, hazardous, and repetitive climbing up and down narrow ladders during operations.
