After installing over 550,000 linear feet of utilities under virtually every profile of bridge, we fully understand the associated challenges. We would love to assist on your next project and help make it go as smoothly as possible.

ASBEN B-32 - Innovation like no other
A Bridge Inspection Unit designed for maneuverability and light weight, with a 33 ft downreach, sliding counterweight stabilizers, and a 7 ft platform extension.
**ASPEN B-32 Medium Scale/Max Versatility**

A lightweight highly maneuverable UBIT with an extensive reach

---

**PLATFORM SPECS**

- Main Basket (in) | 38” x 54”
- Main Basket (mm) | 965 x 1371 mm
- Height (ft/mm) | 42” / 1067 mm
- Working Payload | 600 lb/272 kg

**MAXIMUM REACH**

| Under Reach | ft/m | 10.3 m / 33'10” ft |
| Down Reach from handrail (42” height) | 31.6/9.6 |
| Down Reach from level surface | 33 /10 |
| Down Reach from handrail | 36.5/11 |

**VEHICLE INFO**

For more specific vehicle options, capabilities, and dimensions please contact one of our specialists at:
Todd@bridgemastersinc.com
or call 1.888.851.0744

---

**MANEUVERABILITY**

Extremely maneuverable - incorporating three articulating booms, a telescoping third boom, with two rotating turrets, and seven foot platform extension. A plus-one graphic terminal Interface in the cab.

**LIGHTWEIGHT**

Strategically designed to weigh less than 26,000 GVW. Resulting in an unmatched reach capability vs. the vehicle weight. Making the Aspen B-32 ideal for accessing weight-restricted bridge structures.

**STABILIZATION**

Exceeds ANSI A92.8 standards. Innovative sliding counterweight system - Outriggers are not required, and counterweights stay within the width of the truck. Stability interlocks with monitoring system.
