

THE BRIDGEWALKER TYPE II

A Versatile Small-scale Trailer-mounted UBIT with Maximum Load Capacity

The Bridgewalker Type II is designed

for heavy work use. The goose-neck trailer mount allows for larger baskets and ladder assemblies, and it has a basket capacity of 600 lbs.

- UP TO 7 FOOT UNDER THE BRIDGE
- **UP TO 12 FOOT BELOW**THE BRIDGE HANDRAIL
- DUAL CONTROLS ON TRAILER AND IN BASKET

UTILITY INSTALLATION

After installing over 650,000 linear feet of utilities under virtually every pofile of bridge, we fully understand the associated challenges. We would love to assist on your next project and help make it go as smooth as possible.

BRIDGE INSPECTION

Bridge Masters Inc. has over 2 decades of hands-on experience in this specialized field. Through these years we have been vigorously perfecting our methods and machines. Allow us to help you benefit from these refinements.

Max Horizontal Reach Under Bridge

Max Vertical Reach Below Bridge

INTEGRATED TOOL TRAILER

The Bridgewalker Type II incorporates a gooseneck trailer with a two-level safety deck. There is fore and aft tool storage, engineered for quick and efficient access. Safety stairs are located on either sides of the main deck for optional lane staging positions. Includes built-in auxiliary compressors.

EXCLUSIVE PATENTED SYSTEM

Our Bridgewalker Type II was developed and patented by Bridge Master Inc. It was designed to offer the latest operational safety features, and support a significant payload to increase project efficiency. This advantage allows more personnel, equipment, and materials at hand, to save time and money.

SAFETY AND EFFICIENCY

The focus of the Bridgewalker Type II design is to increase work efficiency and safety while engaged in bridge utility and inspection. The long-term experience of our team has led to the development of many of these hybrid features, and cannot not be found on any other competing units.
